

SCENAR Conference

March 1st 2nd 3rd Sydney

Dr Gerd Raetzel RETURNS!

We are delighted to report that our **Master SCENAR Trainer Dr Gerd Raetzel** returns to Sydney for the first 3 full days of **March SCENAR THERAPIST CONFERENCE** featuring **advanced NEW techniques**. The information and techniques presented are leading edge and essential if you wish to have this the most current medical /osteopathic /biomedical-engineer's explanation of SCENAR and learn to apply:

- March 1. Effective Therapies with "Dynamic Raetzel Approach"**
- March 2. How to "Combine Diagn 1 with the Raetzel Approach"**
- March 3. Workshop "Focus on Functional Anatomy and SCENAR"**

Ongoing reports about The Raetzel Approach's effectiveness and speed continue to flood in from Therapists across Australasia. **DO NOT MISS HIM!**

Dr G. Raetzel, an orthopaedic surgeon, has a degree in biomedical engineering. Be sure not to miss this exceptional occasion to learn from the World's Leader. **3 fully catered days of training at the 4.5 star Stamford Plaza Sydney Airport Hotel with handouts, for just \$990 incl GST .**

The SCENAR Therapy System™ empowers therapists to find and treat complex and difficult painful problems using on-board digital interactive assessment and real-time computer-modulated SCENAR bio-feedback stimulation **to create dramatic and sustained results, quickly. Certificate Training, Support, Warranty and Service**

SCENAR TRAINING (International) CONFERENCE
3 Days - Sat 1st, Sun 2nd, Mon 3rd March 2008

Dr Gerd Raetzel

World Leading SCENAR Therapist Trainer.
Physician, Orthopaedic Surgeon, Bio-medical Engineer,
University Lecturer, Scientist and Author.
Developer of the 'Raetzel Dynamic Approach'

- highly in demand internationally (Europe, Africa, Asia)
- most popular presenter 07 European SCENAR Conference
- a viable approach for busy professional practitioners
- developer of SCENAR TRAINING (International) Modules

Last year Dr Gerd Raetzel brought a revelation and a revolution in SCENAR Therapy to Sydney. Since then, his breakthrough, scientific and practical "Raetzel Approach" has produced startling results in record times across Australia and New Zealand.

This year we see how the Dynamic Raetzel Approach can be used with both the Dynamic and Digital Diag 1 settings, and how the whole of ENAR and SCENAR therapy can be better utilised with a better understanding of Functional Anatomy. Paul Keetley and the team at Enlightened Therapies are very proud to bring Dr Raetzel to Sydney again, this time with a comprehensive, value-packed schedule over three days.

Workshop Approach and Content

The Essence of SCENAR demystified

* RESULTS Focus * No Protracted or Complicated Protocols * REALISTIC and RELEVANT * Credible * Experienced * Professional * 80/20 Dynamic Techniques plus much more * ENGLISH SPEAKING.

Previous Participant Feedback

Truly excellent presentation, we must bring him back! - Very inspiring! - Absolutely Fabulous! - Too short!
- Leading edge - No B*S* - Answered all my questions - I felt all the (6) SCENAR courses I have done could be simplified into two. - Profoundly valuable

Course Includes

Printed session handouts, Full break and lunch-time catering. Instructional time, case demonstrations and sufficient time for questions and answers.

Requirements

A minimum of Level 1 SCENAR training is pre-required.
(Please NOTE : Day 1 may also be attended by ENAR trainees)

Venue

4.5 star STAMFORD PLAZA AIRPORT HOTEL Corner Robey & O'Riordan Streets, Mascot, Sydney

Times

9.00am to 5.00pm (optional Evening Dinners out on Sat and Sun)

Investment

Total \$990 per person incl GST Absolutely great value - 3days for \$900 plus GST

SCENAR TRAINING (International) CONFERENCE
3 Days - Sat 1st, Sun 2nd, Mon 3rd March 2008

3 Day Course Agenda

Saturday March 1

Effective Therapies with the Dynamic Raetzel Approach in the Basic Mode (Diagn 0).

A basic lecture with emphasis on time effective and clinically efficient therapies with the Raetzel Approach, that covers : what is the potential of SCENAR ? - characteristics of the SCENAR impulse-wave - physics and physiological reactions - how to locate and treat the Key Point - settings of the SCENAR device - updated terminology - applications using the Basic Analog (Diagn 0) mode - applications using the Digital measurement (Diagn 1) mode - the goals of our therapy - triad of time, location, dynamics - effective sequences - duration of therapy - the most efficient, effective, holistic approach = How to perform a therapy with continuously dynamic settings and how to evaluate the ongoing changes in the here and now.

Sunday March 2

How to combine Digital Mode (Diagn 1) with the Dynamic Raetzel Approach ·

How to time optimize the digital mode (Diagn 1) with the Raetzel Approach. - new scientific interpretations of the measured values and updated terminology - alternative options to best utilize the time needed for the Zero Value - how to use the digital mode (Diagn 1) - how to individualise the digital mode for specific circumstances. - practical applications of Diagn 1 with Diagn 0 and the Raetzel Approach - self-defined practical individual procedures - how to adjust SCENAR Therapy individually in order to provoke changes adjusted to observed responses. = How to optimize the digital mode (Diagn 1) in combination with the basic analog mode (Diagn 0) and the Raetzel Approach, to achieve more effective therapy. How to combine digital and basic analog mode in sports medicine.

Monday March 3

Functional Anatomy and SCENAR. ·

How Functional Anatomy determines the area of interest and the choice of the primary treatment zone and - how Functional Anatomy leads to the Key Point of Therapy - how Functional Anatomy correlates to clinical deficiencies - how to follow the individual adaptive responses with SCENAR in the here and now - how it facilitates the understanding of Reciprocal Zones = How to optimize and simplify protocols with the combined understanding of Functional Anatomy and the Dynamic Raetzel Approach.

Dr Raetzel “The understanding of SCENAR and Functional Anatomy improves the outcomes of therapy and leads to a better understanding, **especially for medical doctors**. The optimal symbiosis of the two combines as a more credible medical approach for a broader acceptance and integration of SCENAR in hospital and clinic settings.”

Optional : Evening Dinner Outings Mar 1 & 2
Sat 1st - Chinatown Seafood Evening Banquet (\$70 person)*
Sun 2nd ^ Summit Revolving Restaurant Dinner (\$100 person)*
(* Dinner Prices are top-line set menu. Alcoholic Drinks not included.)
(* Courtesy Coach Transfers to and from dinners are provided.)

Bookings are Essential as space is limited so Please book before Friday 15th February 2008.
Credit Card Payments may be made over the phone. Call 1300 305 107 for a registration form.
