

PAIN?
Tried Everything?

Scenar Therapy electronically finds and treats problem areas with acupuncture type electro-neuro stimulation - but with no needles. Scenar Therapy works by locating, measuring and treating your 'key-points' anywhere on the body.

Scenar prompts the body to help correct itself using 'reflex-bio-feedback' interactively via the skin to quickly **Relieve Pain & Rejuvenate Function**. Scenar Therapy is non-invasive and non-toxic, and patients often report results from the first treatment, see www.scenartherapies.com for more details
